VIVAL G10 | Modular Partition System

Fast-assembly, lightweight, ultra-resilient building kits

Ideal for the quick setting of separated work spaces

- Modular building system for the creation of partitions and isolated spaces
- Based on Aluminum structure and connectors set, allowing flexible design
- Various wall types available (can all be combined) :

Option 1	Antibacterial, multilayer, opaque 3 mm PVC walls
Option 2	Translucent 4 mm Polycarbonate multiwall panels
Option 3	Transparent 3 mm Polycarbonate panels
Option 4	Transparent 0.7 mm Polycarbonate panels

- Walls dimensions: 120cm width x 220cm height
- Fast erection of separated rooms or areas with dividers
- Allows easy building of expandable architectures / partitions in large scale
- Doors can be added to any design or structure
- Long lasting heavy-duty materials. Do not rust or fracture
- Sanitizable with alcohol
- 100% maintenance free
